Product End of Life (EOL) Cycle Notice for VereVet™ Detection Kit

Dear Sir / Madam

This letter is to inform you that Veredus Laboratories plans to execute an EOL cycle process for VereVet™ Detection Kit with immediate effect.

After a thorough review of our existing product offering, we have made the determination to discontinue VereVet™ Detection Kit in order to provide you with more advanced products while more efficiently managing our product portfolio. We sincerely appreciate your use of VereVet™ Detection Kit, and we seek your understanding on any inconvenience caused by this termination. We hope that this notification allows you time to complete existing plans to use VereVet™ Detection Kit and explore alternative use of our other Lab-On-Chip (LOC) products.

Please note that, with immediate effect, VereVet™ Detection Kit shall no longer be offered as a commercial product. However, Veredus shall continue to support and service existing VereVet™ Detection Kit up to 90 days from the date of this letter.

Thank you for your understanding and we look forward to your continuing support. Please contact your local representative or Product Manager, Dr Damian Foo at damian.foo@vereduslabs.com, with any questions or concerns regarding this matter.

Sincerely

Dr Rosemary Tan
Chief Executive Officer
